

Recycle your bike chain with us! It's as easy as 1-2-3.

- 1** Just throw greasy chain in a box (no rust please). Sorry, we are not taking freewheels, cassettes or any other parts at this time.

- 2** Call or email when the box is full and let us know the actual weight (not an estimate). Boxes should weigh at least 30 lbs and no more than 50 pounds.

- 3** We send UPS to pick up the boxes at no cost to you. They'll even bring the labels!

Call or email when you have a box ready for pickup:
recycling@resourcerevival.com or 1-800-866-8823.

All recyclers will get their shop name listed on our website and have a chance to win awards at the end of the year.
